Subject: Revised Work Plan for WA 1-09

Attached is the revised work plan (WP) for Work Assignment 1-09. This revision to the WP reflects our understanding from the second round of comments received from EPA.

As you are aware, SC&A initially revised the WP based on the first set of comments, not knowing that additional comments were expected. Therefore, to address the second set of comments, we had to revise the WP a second time.

I hope that this version meets your expectations. An expedited WP approval is requested.

Note that SC&A will not be able to accomplish all tasks described in this WP by the completion date stipulated in the WA because of the startup delays associated with the work assignment itself. I am sure that a more firm schedule will be established following WP approval.

Thank you

Abe Zeitoun
